## The Printer

Without him... tyrants and humbugs in all countries would have their own way... He is a friend of intelligence and thought... a friend of liberty... of freedom... of law... indeed the friend of every man who is a friend of order...

Of all inventions, of all discoveries in science and art... of all the great results in the wonderful progress of mechanical energy and skill... the printer is the only product of civilization necessary to the existence of free men.

Charles Dickens
